FOREWORD

The report on Brief Industrial Profile of Bankura district has been updated for 2017-2018. The report chiefly focuses on the district profile, major resources available in the district and the existing infrastructural facilities, which can be utilized to provide support to the existing industries and encourage creation of new enterprise in the district. The report also explores the scope for ancillarisation, present industrial scenario, existing large & medium scale enterprises in the district, no of UAMs registered and other related issues which examine the industrial potentiality of the district. Besides, the potential areas for developing and setting up new MSME Units have also been addressed separately.

In preparing this report, necessary data and co-operation has been obtained from various departments of the State Government, Central Government, Financial Institutions, MSME stakeholders, Promotional agencies and other related departments. The major source of information has been the Bureau of Applied Economics and Statistics, Government of West Bengal (District Statistical Handbook). I would like to extend my sincere thanks and regards to all of them for their sincere co-operation and assistance.

I hope this Report will be found very useful by Promotional Agencies, Financial Institutes, NGOs and above all the small scale entrepreneurs of the district.

I appreciate the efforts rendered by the officers of EI Division in preparation of this Report.

Brief Industrial Profile of Jhargram District (WEST BENGAL)

1. General Characteristics of the District:

The district Jhargram formed on 4th April, 2017 bifurcated from Paschim Medinipur as the 23rd district of the state of West Bengal. Originally it was one of the four sub-divisions of West Medinipur district. It is famous for its forests. It is favorite destination of the tourists who loves forests. The ancient temples, royal palaces and folk tunes have made this area attractive. On the other hand it was a part of the “Red Corridor”, a part of 106 districts spanning over 10 states across India described an area of the Maoist i.e. left wing extremists. However, since July, 2016 there has been no reported incident of Maoists related activities from the district.

1.1 Location & Geographical Area:

The district Jhargram lies in the South Western corner of the State of West Bengal. It is bounded by the district of Bankura on the north, Purulia district and Jharkhand State are on the west, Orissa state is on the south and Paschim Medinipur district on the east. The district head quarter is Jhargram It is 40 kms away from Midnapore town, the previous district Headquarter and 165 kms away from Kolkata, the state capital.

Jhargram district covers an area of 3037.64 Sq. kms. Out of which 268249 hectare is agricultural land and 59497 hectare is under forest coverage.

1.2 Topography:

The district is a part of Chotonagpur plateau; it gradually slopes down towards east; hilly terrain occurs in the north-western portion of the district. Kakrajhore area is having the highest altitude of about 300 mts. These area is covered with unfertile hard laterite soil/rocks. The altitude of southern areas of the district belonging to Nayagram, Gopiballavpur-I & II blocks are having the altitude of about 65 mts; soil is comparatively alluvial in these area. The altitude of Jhargram town is around 80 mts.

There are a numbers of rivers in this district flow from north to south/south-east direction. The major rivers are kangsabati, Subarnarekha, Silabati, Keleghai and Dulang.

3.5 Major Exportable Item: NA

3.6 Growth Trend: Jhargram is newly formed district. Actually Jhargram Subdivision of West Midnapore district has now been declared as a separate district as Jhargram District. The area is backward in industrial growth. Whatever the industries available in this district is mainly

concentrated in and around Jhargram town and Jhargram C D Block. However, before its formation the West Midnapore District Planning Authority & WBIIDC have proposed and initiated a number of projects for industrialization of this area. SEZ project at Guptabani, Jhargram is conceived considering ancillary requirements to sustain the new industrial activities and projects which are coming in and around Kharagpur township.

3.7 Vendorisation / Ancillarisation of the Industry

A district cannot be termed as industrialized in broad sense only by having some medium & small establishment until there is set up of ancillary industries in the district. This remark is very much applicable to Jhargram.

The newly formed district has wide possibilities for development of ancillary industries based on the requirement of large and medium scale industries. There are only few large and medium scale industries in this district.

5. General issues raised by industry association during the course of meeting

The district is industrially backward with agriculture being the major source of occupation. Proper land utilization with the adoption of modern agro-techniques is extremely essential for growth in the agricultural sector. The district has a surplus production in paddy, potato, jute and vegetables. Hence, development of an organized marketing system is necessary for proper distribution of agricultural produce. Establishment of warehouses and cold storages can also provide a boost to agricultural growth. Most of the large and medium scale industries are situated in and around Jhargram town and C D Block.
