FOREWORD

The report on Brief Industrial Profile of Murshidabad district has been updated for 2017-2018. The report chiefly focuses on the district profile, major resources available in the district and the existing infrastructural facilities, which can be utilized to provide support to the existing industries and encourage creation of new enterprise in the district. The report also explores the scope for ancillarisation, present industrial scenario, existing large & medium scale enterprises in the district, no of UAMs registered and other related issues which examine the industrial potentiality of the district. Besides, the potential areas for developing and setting up new MSME Units have also been addressed separately.

In preparing this report, necessary data and co-operation has been obtained from various departments of the State Government, Central Government, Financial Institutions, MSME stakeholders, Promotional agencies and other related departments. The major source of information has been the Bureau of Applied Economics and Statistics, Government of West Bengal (District Statistical Handbook). I would like to extend my sincere thanks and regards to all of them for their sincere co-operation and assistance.

I hope this Report will be found very useful by Promotional Agencies, Financial Institutes, NGOs and above all the small scale entrepreneurs of the district.

I appreciate the efforts rendered by the officers of EI Division in preparation of this Report.

(Ajoy Bandopadhyaya)
Director
MSME-DI, Kolkata

Brief Industrial Profile of Murshidabad District West Bengal

1. General Characteristics of the District:

Murshidabad was the capital of Bengal, Bihar & Orissa during the Muslim rule. In fact, the capital had been shifted from Dacca to Murshidabad in 1704 A.D. Practically it got recognition as an independent district in 1787 A.D. Prior to that, it was within the geographical boundaries of Birbhum & Bankura. Subsequently, in 1879, the district received a final shape and since then its area has remained more or less the same.

The district is basically agrarian in character. The major work-force of the district is engaged in this sector. The agricultural sector makes the greatest contribution to the district's total income. The district is not endowed with much natural resources. In the Secondary Sector, i.e. manufacturing, the district's performance is far below the desired level. It has been identified as an industrially backward district.

1.1 Location & Geographical Area.

Geographical Location of Murshidabad district					
Name of the district	Latitude		Longitude		Area
	North	South	East	West	
Murshidabad	24°50'20"N	23°43'30"N	88°46'00"E	87°49'17"E	5324 sq.kms

The district head quarters of Murshidabad is Berhampore which lies on the latitude 24°08' North & longitude 88°16' East. It is the northern most district of Presidency Division of West Bengal and is situated in the lower Gangetic valley. In terms of area, the district occupies 6.07 per cent of the total area of the State.

Murshidabad district is bounded by Santhal Parganas (Bihar) and Birbhum in the West, the districts of Malda, & Nadia in the North, Bangladesh in the East and Districts of Burdwan & Nadia in the South. The rivers Ganges & Padma flow from the northern & eastern boundary of the district whereas the river Jalangi runs along the Southern boundary for a considerable stretch.

1.2 Topography

Beside historical importance, the district 'Murshidabad' has occupied a distinctive position in the 'Agriculture Map' of the State of West Bengal as because the soil, weather & climate of this district permit multiple cultivation. In fact, the river Bhagirathi has distinctly divided this district into two zones viz. 'RARH' and 'BAGRI' which are situated on the Western and Eastern sides of the river Bhagirathi respectively. The structure and texture of soil of two zones are also different.

The soil of RARH is mostly clay and lateritic clay type, comparatively heavy, gray or reddish in colour. The land is high and slightly undulating having gentle slop from West to East. The soil of the area is generally low in carbon content and acidic to neutral in reaction. The main crops are paddy, potato but oil seed and vegetables are cultivated successfully in all the three seasons.

On the other hand, the soil of BAGRI is mainly alluvial type with comparatively light texture, low in organic carbon content and soil reaction is slightly acidic to neutral. The principal crops are Jute, Paddy, etc.

The district is well-drained by a number of rivers and rivulets. The important rivers amongst them being the Ganges and its tributaries namely the Bhagirathi, the Jalangi and the

Bhairab. The Ganges first touches the district at its extreme northern point and flows almost due South-East and then gets bifurcation into two major streams, viz. Bhagirathi & Padma at Nurpur. The Bhagirathi which branches off from the Ganges flows from North to South dividing the district into almost two equal parts. The Jalangi start its courses in the Jalangi Police Station area on the East of the district & Bhagirathi branches off from Padma in the Lalgola Police Station area. The river Mayurakshi enters the district through Kandi Sub-division. It is worth mentioning that the Bhagirathi which had become non-navigable has been made navigable again with the construction of Farakka Barrage.

1.3 Availability of Minerals.

PRODUCTION OF MINERAL 2010-11

S.NO.	NAME OF MINERAL	PRODUCTION in tones 2015-2016
MAJOR MINERAL		
1.	Nil	-
MINOR		
1.	Nil	-

SOURCE: - Dte. Of Mines & Minerals, Govt. of W.B

1.4 FOREST

The forest area of the district as per Forest Department, Govt. of West Bengal, was 0.77 thousand hectors of land in 2015-16. But most of the forest was under Social Forestry Project. Natural forest is hardly found in the district

1.5 Administrative set up.

The district administration is headed by the District Magistrate. For administrative purposes, the district is divided into 5 Sub-divisions & 26 development blocks. A table showing the names of Sub-divisions and the blocks under their jurisdiction is appended below:-

Sub-Division	Police Station	C.D.Block / M	Panchayat			Mouzas	Inhabited Villages	Municipality

3.4 Large Scale Industries / Public Sector undertakings

The District is having the largest Power Plant at Sagardighi 12 km from Raghunathganj and it also having a Central power plant at Farraka.NTPC Generating 1600MW power. A Hydropower project is upcoming in the district. The District has it largest manufacturer of Bidi most of the Women of the district are involved in manufacturing Bidi. The district also have one Iron & Steel Manufacturing Company, in the city of Jangipur, which is also the landmark in the district. The Town of Omarpur is the hub for manufacturing Plastic house hold goods. There is also a MEGA FOOD PARK located at Jangipur in the district of Murshidabad.

3.5 Major Exportable Item

Bell-metal and brass utensils are manufactured in large quantities at Khagra, Berhampore, Kandi, Baranagar and Jangipur. They are exported as well as sold in the local markets. Locks and Betel nut cutters of a superior kind are made at Dhulian and iron chests at Jangipur. The problem of getting raw materials for the brass and bell-metal artisans of the district is, however, acute. While delay in getting raw materials owing to the complicated procedural formalities involved in the submission of applications for raw materials has been almost a constant factor, the industry has also been affected by the change in consumers demand in favor of stainless steel, plastic and ceramic goods and crockery.

3.6 Growth Trend

Industrial projects implemented in the district

A Mega Food Park has been set up at Jangipur, Murshidabad with the project cost of Rs 132.71 crore approximately and in an area of 82.11 acre with a grant of Rs 50 crore provided by Govt. of West Bengal.

Year	No of Units	Inv. (In Cr.)
2016-2017	1	132.71

3.7 Vendorisation / Ancillarisation of the Industry

2	Khwajababa Cold Storage Pvt. Ltd.(II)

3.9.1 Potentials areas for service industry

Cold Storage

3.10 Potential for new MSMEs

Although no large and medium scale industry is running in the district, traditional industry in tiny & cottage sectors have goodwill from long back. In 1912, the Governor of Bengal, Mr. Carmicale, was attracted to the scarf made in this district and at last he visited the residence of artisan, Abdul, at Khagra near Berhampore to see the manufacturing process. Till now, the artisans are manufacturing the traditional silk products, but they are becoming hopeless on this traditional activity due to cut-throat competition from domestic and inter national market. But, other traditional activities like paddy husking, oil mill (ghani), wheat grinding, bidi, etc. are expanding gradually.

Along with these traditional activities, some non-traditional activities like fabrication items, plastic products, brick etc. are also expanding.

4. Existing Clusters of Micro & Small Enterprise

4.1 DETAIL OF MAJOR CLUSTERS

Brass & Bell Metal are the major cluster in the Murshidabad district.

4.1.1 Manufacturing Sector

Plastic Products, Brass & Bell Meta.l

4.1.2 Service Sector

Nil

4.2 Details for Identified cluster

4.2.1 Name of the cluster: Brass & Bell Metal

REPORT ON CLUSTERS IN THE STATE OF WEST BENGAL (UNDER HARD INTERVENTION).

Sl. No	Cluster	Cluster Status	SPV Co-ordinator Phone/ Email Details	Remarks
1	Brass & Bell Metal Cluster, Khgraghat, Murshidabad.	Under Hard Intervention Stage. The project is implemented under UNIDO Scheme. UNIDO had appointed CDE and CDE has implemented the CFC. However, in the 41 st Steering Committee Meeting held at New Delhi on 02.07.2016, it has been advised by AS&DC(MSME), New Delhi to evaluate the status of the CFC and if any proposal for betterment of the CFC is received from the SPV and State govt., then the same should be forwarded with the remarks of Director, MSME-DI, Kol. to the O/o the DC(MSME), N. Delhi. Hence, a meeting with the SPV and DIC, Berhampore, Murshidabad is expected to be held soon for raising proposal for CFC.	Shri Madhusudan Kangsabanik, Asstt. Secretary (Erstwhile), Shri S. K. Gupta, Key Person Khagra Brass & Bell Metal Artisans Welfare Society (SPV). Ph/ Mobile: 9477222500, 923352500/867085 6500 Email: -	The CFC has been visited by the officials of MSME-DI, Kolkata. 71 MSE units & 200 persons have been benefitted.

5. Major Problems faced by MSME Sector

Industrial estates have to be developed in the district. The power supply position needs to be strengthened. Although markets for agro-based items exist in the district, the industrial development and markets for industrial goods needs to be expanded further.

6. PLAN OF ACTION FOR INDUSTRIAL DEVELOPMENT

Before suggesting any plan of action for industrial development SWOT (strengths, weaknesses, opportunities and threats) analysis is done for every district keeping in mind its importance and peremptoriness since every place of an economy is not bestowed with unmixed blessings. Hence, the SWOT analysis for the district of Murshidabad has become inevitable and is depicted below.

Strengths:

- There is a well-established network of electric power. More than 85% of the total mouzas are electrified and power is available for SME sector at concessional rate.

ii. Growth centers have been set up at various areas like Berhampore, Beldanga, Jiaganj, Azimganj, Farakka, Kandi, Domkal, Lalbag, etc.

iii. Almost all the blocks are served by a good network of banking system which makes it easy for the entrepreneurs to avail the required financial assistance.

iv. Road infrastructure is also being developed with various roads and bridges getting connectivity with Highways and National Highways. NH-34 and a number of State Highways pass through the district. The district is well connected to the neighboring districts by Rail Communication.

v. The district is served with a good telecom network having 83 Telephone Exchanges with a total capacity of both landline and mobile connectivity.

Weaknesses:

i. Agriculture being the main activity, people are somewhat reluctant to start a industrial venture. A vast reserve of human resources thus remains unutilized.

ii. The district lacks a proper data bank. Hence, the budding rather prospective entrepreneurs are not able to take investment decisions.

iii. Incidence of sickness in MSE sector if found to be very high, new entrepreneurs seen apprehensive of pumping money into any industrial venture.

iv. Presence of traditional culture has failed to kindle industrial growth.

v. All primary raw materials and agricultural products are generally procured from outside. This has resulted in an increase in cost of production and has sometimes resulted in scarcity.

Opportunities:

Development of industrial sites will induce new investment and in the process accelerate the pace of industrialization. WBSIDC has already set up an Industrial Estate at Berhampore, which is expected to become operational soon.

i. Presence of major growth centres at Berhampore, Beldanga, Lalbagh, Jiaganj, Azimganj,etc has encouraged setting up of MSE units, which has provided considerable employment opportunities.

ii. The existence of a vast reserve of unemployed persons mitigates to a certain extent, the problem of non-availability of skilled labour to entrepreneurs. Setting up of more industries will provide relief to the local youths.

iii. The development of industrial sector will influence the overall development of the region and thereby improve the standard of living of the local population.

Threats:

i. Erratic climate conditions, particularly with some part of the district being flood prone, quite often discourages entrepreneurs to take investment decisions.

ii. Unorganized markets with price fluctuations create uncertainty about the availability of prime raw materials.

iii. There is possibility of creating an ecological imbalance due to rapid deforestation, changing topography of land and utilization of large quantities of ground water.

After developing this snap shot view of the district as a whole, an attempt has been made in this chapter to suggest a few actions which could be undertaken by the promotional agencies for development of small scale industries- an area where employment opportunities can be created at a reasonably low capital investment.

To enhance the MSE growth rate and to put the industrial sector on the road to success, the following programmes namely entrepreneurship development training programmes, seminars, industrial exhibition, study tours etc. are suggested for execution by the governmental and non-governmental agencies. It is expected that these programmes will serve as a catalyst to accelerate the pace of industrial growth and extract the best of entrepreneurship from the local people.

7. CENTRAL GOVT. SCHEMES.

(A) Public Procurement Policy for goods produced and services rendered by Micro and Small Enterprises (MSEs) be procured by Central Ministries/Departments/Public Sector Undertakings (PSUs).

The Cabinet has approved the Public Procurement Policy for goods produced and services rendered by Micro and Small Enterprises(MSEs) be procured by the Central Ministries/Departments/Public Sector Undertakings(PSUs) to be notified under Section 11 of the Micro, Small and Medium Enterprises Development(MSMED) Act, 2006. The Policy is applicable w.e.f. 1.4.2012.

The MSEs, including the khadi, village and coir industries, constitute an overwhelming majority of this sector, contributing significantly to the gross domestic product, manufacturing output and exports. In the overall production/value chains, however, MSEs are highly susceptible to volatile market conditions. To address this inherent problem, many countries in the advanced world have put in place public procurement policies to support MSEs and to ensure a fair share of market to such entities. Under the existing dispensation in India, the Government guidelines provide for support in marketing of MSE products through a variety of measures such as price preference, reservation of products for exclusive purchase from MSEs, issue of tender sets free of cost, exemption from payment of earnest money, etc. In practice, however, most of these facilities are not being provided to the MSEs by the Government Departments/CPSUs, etc.

The main features of the Public Procurement Policy for MSEs are:

- i) Every Central Ministry/Department/PSU shall set an annual goal for procurement from the MSE sector at the beginning of the year, with the objective of achieving an overall procurement goal of minimum 20 per cent of the total annual purchases of the products or services produced or rendered by MSEs from the latter in a period of three years.
- ii) Out of 20% target of annual procurement from MSEs owned by SC/ST entrepreneurs. However, in the event of failure of such MSEs to participate in the tender process or meet the tender requirements and the L1 price, the 4% sub target for procurement earmarked for MSEs owned by SC/ST entrepreneurs will be met from other MSEs.
- iii) At the end of 3 years, the overall procurement goal of minimum 20% will be made mandatory. Non-conforming Departments will be required to provide reasons for the same to be Review Committee set up under the Policy
- iv) The participating MSEs in a tender quoting price within the band of L1+15% may also be allowed to supply a portion of the requirement by bringing down their price to the L1 price, in a situation where L1 price is from someone other than an MSE. Such MSEs may be

allowed to supply up to 20% of the total tendered value. In case of more than one such MSE, the supply will be shared equally.

- v) Every Central Government Ministry/Department/PSU will report the goals set with respect to procurement to be met from NSEs and the achievement made thereto in their respective Annual Reports.
- vi) The Central Ministry/Department/Public Sector Undertaking will continue to procure 358 items from MSEs, which have been reserved for exclusive purchase from them.
- vii) For enhancing the participation of SCs/STs in the Government procurement the Central Government Ministry/Department/PSUs will take necessary steps including organizing special Vendor Development Programmes, Buyer-Seller Meets etc.
- viii) Given their unique nature, defence armament imports will not be included in computing the 20% goal for M/o Defence. In addition, Defence Equipments like weapon systems, missiles, etc. will remain out of purview of such policy of reservation.
- ix) A Committee has been constituted under the chairmanship of Secretary(MSME), inter alia, to review the list of 358 items reserved for exclusive purchase from NSEs on a continuous basis and for monitoring and review of the Public Procurement Policy for MSEs. In addition, a 'Grievance Cell' would be set up in the Ministry of MSME for redressing the grievances of MSEs in Government procurement.

The policy will help to promote MSEs by improving their market access and competitiveness through increased participation by MSEs in Government purchases and encouraging linkages between MSEs and large enterprises.

(B) Central Govt. Incentives and subsidies:

Govt. of India is the authority to make acts, policies, various developmental schemes and programs for overall development of MSME sectors. It rolled out the Micro, Small and Medium Enterprises Development (MSMED) Act-2006 on 2nd Oct., 2006 with a view to simplify the previous act, providing better service and assistances to MSME sector, gathering up-to-date data of the sector for immediate action and overall speedy development of MSMEs in the country. The Govt. implements these acts, scheme and programs through a network of govt. and semi govt. promotional agencies like MSME-DI, SIDBI, NSIC, KVIC, Coir Board, etc. However, major incentives and subsidies are provided by DC, MSME and MSME-DI highlighted in brief in following paragraphs:-

Office of Development Commissioner operates a number of schemes for the MSME sector. At a glance these are:-

National Manufacturing Competitiveness Programme (NMCP) Schemes Under XI Plan

The Government has announced formulation of National Competitiveness Programme in 2005 with an objective to support the Small and Medium Enterprises (SMEs) in their endeavor to become competitive and adjust the competitive pressure caused by liberalization and moderation of tariff rates. The components of the scheme are :

- Marketing support/assistance to MSMEs (Bar Code).
- Support for entrepreneurial and managerial development to SMEs through Incubators.

- Enabling Manufacturing Sector to be competitive through Quality Management Standards and Quality Technology Tools (QMS/QTT).
- Building awareness on Intellectual Property Rights for MSMEs(IPR).
- Lean Manufacturing Competitiveness Scheme for MSMEs(LMCS).
- Setting up of Mini Tool Room & Training Centers under PPP Model(MTR).
- Design Clinic for Design Expertise to MSME sector (Design Clinic).
- Scheme for Technology and Quality Upgradation (TEQUP)Support to MSMSs.
- Marketing Assistance & Technology Upgradation(MATU) scheme for MSMEs.
- Promotion of ICT in Indian Manufacturing Sector(ICT)
- Building awareness on ZED for MSMEs(IPR).

1) Micro & Small Enterprises Cluster Development Programme (MSE-CDP)

DC(MSME) launched MSE-CDP for holistic development of selected MSEs clusters through value chain and supply chain management on co-operative basis.

2) Credit Linked Capital Subsidy Scheme for Technology Upgradation

The Scheme was launched in October, 2000 and revised w.e.f. 29.09.2005. The revised scheme aims at facilitating Technology Upgradation of Micro and Small Enterprises by providing 15% capital subsidy (12% prior to 2005) on institutional finance availed by them for induction of well established and improved technology in approved sub-sectors/products. The admissible capital subsidy under the revised scheme is calculated with reference to purchase price of Plant and Machinery. Maximum limit of eligible loan for calculation of subsidy under the revised scheme is also been raised Rs. 40 lakhs to Rs. 100 lakh w.e.f. 29-09.2005.

3) Credit Guarantee Scheme

Collateral free loans upto a limit of Rs. 1 Cores - for individual MSEs.

4) ZERO DEFECT ZERO EFFECT Scheme -

The main objective of ZED (Zero Effect, Zero Defect) scheme is to reduce the bad effect of products on environment. While MSME sector plays a big role in the GDP of India, the scheme will help contribute to environment as well.

Benefits of ZED certification

- Credible recognition of the industry for international customers seeking investment in India
- Streamlined operations and lower costs
- Superior quality, reduced rejection and higher revenues
- Increased environmental & social benefits
- Additional employment generation
- Other benefits as announced by the Government from time to time

5) NATIONAL AWARDS

These awards are given away to small scale entrepreneurs for encouraging and motivating them for efficient management of their small scale units, their modernization with a view to upgrading the quality of their produce, higher productivity, increasing their share both in the domestic/export markets, innovation and bringing about technological improvements.

The awards are given on the basis of the recommendations by State/UT level Selection Committee and the final selection by the National Level Selection Committee.

In 1993, a special prize at par with first National Award was introduced to honour an outstanding women entrepreneur and also an outstanding SC/ST entrepreneur. The awards are given for every calendar year.

8. STEPS TO SET UP MSMEs

Following are the brief description of different agencies for rendering assistance to the entrepreneurs.

Sl. No	Type of assistance	Name and address of agencies
1.	UDYOG AADHAAR MEMORANDUM (UAM)	MSME-DI, 111-112, B.T ROAD, Kolkata-108 & District Industries Centre, Dte. of M& SSE, Govt. of West Bengal, C. R. Das Road, Berhampur, Dist: Murshidabad, Pin - 742101, West Bengal
2.	Identification of Project Profiles, Techno-economic and managerial consultancy services, market survey and economic survey reports.	(1) MSME – Development Institute, Ministry of MSME, Govt. of India, 111 &112, B. T. Road, Kolkata-700108. (2) Directorate of Industries New Secretariat Bldgs, 9th fl., 1, Kiran Sankar Roy Road, Kolkata-1 (3) W.B. Small Industries Dev. Corpn., 6A, Raja Subodh Mulick Square (3r floor) Kolkata-13 & 31, Block Burn Lane, Silpa Bhawan, Kolkata-12
3.	Land and Industrial shed	(1) W.B. Small Industries Dev. Corpn., 6A, Raja Subodh Mullick Square, (3r floor) Kolkata-13 & 31, Black Burn Lane, Silpa Bhawan, Kolkata-12 (2) West Bengal Industries Infrastructure Development Corpn. Ltd., P-34, CIT Road, Kolkata-14
4.	Financial Assistance	(1) West Bengal Industrial Development Corporation Limited, 5, Council House St., Kolkata-1 (2) Small Industries Dev, Bank of India(SIDBI) Eastern Regional Office, 11, Dr. U. N. Brahmachari Road, Kolkata-17 (3) W. B. Financial Corpn., 2A, Netaji Subhas Road, Kolkata-16 (4) United Bank of India, H.O. 16, Old Court House St, Kolkata-1 (5) All other Banks
5.	For raw materials under Govt. Supply	National Small Industries Corpn. Ltd., 20 B, Abdul Hamid St., 7th floor, Kolkata-69
6.	Plant and machinery under hire / purchase basis.	National Small Industries Corpn. Ltd., 20 B, Abdul Hamid St., 7th floor, Kolkata-69
7.	Power/ Electricity	(1) W. B. State Electricity Distribhtion Co. Ltd. Bidyut Bhawan, Sector-II, Salt Lake City, Kolkata-91 (2) Calcutta Electric Supply Corpn. Ltd., Victoria House, Kolkata-69

		(3) Durgapur Projects Ltd. Administrative Building, Dist- Burdwan, Pin-713201. (4) Dishergarh Power Supply Co.Ltd. P.O- Dishergarh, Asansol, Pin-713301
8.	Technical Know - how.	(1) Indian Institute of Technology, Kharagpur, Paschim Medinipur (2) Deptt. Of Engineering & Technology, Jadavpur University, Jadavpur, Kolkata-32
9.	Quality & Standard	MSME Testing Centre (MSME -TC), 111 & 112, B.T. Road, Kolkata-108
10.	Marketing /Export Assistance	(1) Zonal Joint Director General of Foreign Trade, 4, Esplanade East, Kolkata-700069 (2) W.B. Small Industries Dev. Corpn., 6A, Raja Subodh Mulick Square (3r floor) Kolkata-13
11.	Other Promotional Agencies	(1) Reserve Bank of India, Rural Planning and Credit Department, 15, Netaji Subhas Road, Kolkata-1 (2) Indian Institute of Packaging, Block CP, Sector V, Salt Lake City Kolkata-91 (3) Khadi and Village Industries Commission 33, Chittaranjan avenue, Kolkata - 73
